

School Emergency Supplies and Go Kit Suggestions

Below are suggested emergency supplies in preparation for either an evacuation or an emergency that requires students and staff to shelter in place. Select supplies that address the needs of the specific school, its population, climate, facilities, and resources. The school safety plan should reference both the supplies to be stockpiled, their location and accessibility, and staff responsible for stocking and replenishing.

"Go Kits"

A self-contained and portable stockpile of emergency supplies, often placed in a backpack and left in a readily accessible but secure location so that it is ready to "go." The contents of the go kits should reflect the safety team's consideration of the school's circumstances and resources.

REMEMBER: consider students with special needs when developing your school and classroom kits.

Go Kit Items For Consideration		
Administration Go Kit Supplies	Classroom Go Kit Supplies	
 Clipboard with List of students List of students with special needs and description of needs (i.e. medical issues, prescription meds, dietary needs), marked confidential List of school personnel List of school emergency procedures Whistle and hat for leadership identification Battery-operated flashlight Utility turnoff procedures Emergency communication device First aid kit with instructions 	 Clipboard with List of classroom students List of students with special needs and description of needs (i.e. medical issues, prescription medicines, dietary needs), marked confidential List of school emergency procedures Whistle and hat for teacher identification First aid kit with instructions Student activities (such as playing cards, Board games, checkers, inflatable ball, video games, if possible) 	

School Emergency Supplies

Schools should store emergency supplies in case its students and staff are required to remain in their classroom or at the school due to an emergency. All supplies should be securely stored in an accessible, central location. They should be labeled, protected, and maintained. Supplies that have expiration dates (such as batteries, food, water, and prescription medications) must be replenished over time. The safety team leadership should delegate the responsibility for making sure that these kits are properly stocked and replenished.

Schools should consider the following lists in light of their particular needs. Some items are easily stored while others are not. For example, extra clothing for young students is commonly stored in the classroom; older students could store extra clothes in their lockers.

(Suggestion: consider your lost and found clothes as potential emergency supplies

Suggested Supply Items For Consideration			
Administration Supplies List	Classroom Supplies List	Student and Staff Supplies List	
 Designated command post with student roster (and photos), emergency contact information, and staff roster (with photos) in the form of a sign in/sign out sheet. Reflective vests or other means of identifying safety team members Whistles Small directory with emergency telephone numbers of local drugstores, etc. Walkie-talkies Pens, pencils, or wax markers Cell phone charger(s) Special needs roster Campus maps with evacuation sites & reunification site (See: Rapid Responder) First aid supplies First aid supplies First aid instruction manual Medical gloves Food Water supply Battery-operated flashlight or light sticks Extra batteries Battery-operated radio Blankets, pillows Portable toilets, makeshift toilets, or garbage bags Sanitary items (toilet paper and towelettes) Work gloves Plastic sheeting / tarps Breathing masks Can opener Waterproof matches and container Lighter Multipurpose tool, wrench or pliers, and knife Speaker or megaphone Utility turnoff procedures 	 Clipboard with List of classroom students (and photo) List of students with special needs and description of needs (i.e. medical issues, prescription medicines, dietary needs), marked confidential List of emergency procedures Whistle & hat (or other identifier) for teacher First aid supplies First aid instruction manual Medical gloves Food Water Battery-powered flashlight Batteries Blankets Bucket Sanitary items (towelettes & toilet paper) Work gloves Breathing masks Plastic sheeting Duct tape Can opener Hard candies Student activities 	 Jacket, raincoat Change of clothes Hat, gloves, and scarf where applicable Food Water Soap Bleach / peroxide Personal prescription medications where applicable Band aids – various sizes Scissors Tweezers Candles
