

Reuse, Reduce, Recycle

The three R's poem

I can change the world,

You can do it too!

Reuse, Reduce, Recycle.

Walk, run or ride your bicycle.

Let's give our outgrown clothes to our siblings.

That way we can reuse the good things.

Metal, cardboard and jar glass,

Can be reused by not throwing in the trash.

Make a birdfeeder out of soda bottles,

We can help by doing a little.

Switch off the lights when you are not around,

Don't overflow the water in the ground!

Reduce the energy by doing so,

If you do it, others will follow.

Let's keep the Earth green and the Oxygen clean!

There's pollution in the air and we're all in despair!

What can we do?

Well, recycle; yes, you!
