A well-maintained vehicle is always important, but especially during harsh winter conditions. Things for vehicle owners to keep in mind:

• Keep your fuel tank at least half-full. This will help prevent fuel lines from freezing, and provide necessary fuel should you become stranded.
• Ensure tires have good tread/traction and are properly inflated.
• Ensure that your battery, anti-freeze and cooling system are in good condition.
• Replace worn windshield wipers. Have adequate washer fluid.
• Make sure that headlights and other vehicle lights are operating properly.

NEWS

November 8, 2024 to November 10, 2024, G0428 State of Washington CERT Train The Trainer

All 24 students from Snohomish and King County, 13 from NEMCo, successfully passed the three-day class and received their CERT Instructor Certificate and Badge. Many new friends were made, and we all learned a great deal to improve our teaching skills. NEMCo presented each instructor with a NEMCo challenge coin in appreciation for their support and outstanding instruction.

The course provided an overview of FEMA's Community Emergency Response Team (CERT) Basic Training course and then focused on the Train-the-Trainer program, preparing instructors to:

- Deliver CERT Basic Training.
- Convey the messages and intent of the CERT program (e.g., safety, teamwork, CERT's place in the overall community Emergency Operations Plan).
- Ensure that participants achieve the objectives of CERT Basic Training.
